HEALY", "Sujata JOSHI"

Hi All,

I wanted to let you know ahead of time that I'll be leaving for vacation beginning Monday, 8/1 and returning Monday 8/15.

The process is moving along well, but of course there are still several things in process including;

- Participant recruitment - Sujata Joshi (971.673.1213) Richard Kauffman and Ken Orloff from ATSDR are beginning the process of identifying and recruiting participants, developing survey questions and scheduling appointments for sample collection. Health will be going first and will likely obtain consents for both human and environmental sampling.
- Environmental Sampling - Dave Farrer (971.673.0971), Elizabeth Allen (EPA), Sheila Fleming (EPA), Greg Pettit (DEQ), and Dale Mitchel are working together to develop the protocols for sample collection. Dave will be providing EPA with the names and addresses of participants.
- We are planning for (human) sample collection to occur the week of August 29th, and hoping that environmental sampling can occur at the same time or shortly thereafter.
- Community Engagement - Karen Bishop is launching the website and in communication with members of the community directly and through the list-serv. We are working on the process of identifying community members to participate in an advisory group.
- Interagency calls - We may not need one before 8/15, but if we do Julie Early-Alberts (971.673.0438) is the program manager for the EHAP team and will be working with Dale to set up and hold any interagency calls needed in my absence.

How to contact me if needed: Sandra Healy (971.673.2320) is my assistant and will know how to reach me if there is a need.

I'll be here until COB Friday if you need something before I go.

Jae
